1. As a result of the recent inquiry into alleged illegal domestic activities, it has been ascertained that our current contact with police departments is within the scope of our authority and responsibility. However, it is obvious, in view of the number of inquiries we have had concerning our liaison with police departments, that we will be held strictly accountable for this liaison.

2. In view of the above, each contact with police other than routine police checks must be reported. The report of this contact must reflect the name of the police officers contacted, the identities of Agency representatives present, and the substance of the action taken or the matter discussed.

3. The Chief, Security Support Division is appointed as the responsible officer for insuring that a file, subject Relationships with Police, is established and maintained in an accurate and efficient manner. A copy of each contact report must be placed in this file.
